<b>Happy 65<sup>th</sup> anniversary</b> wishes on June 30 to Rick and Dixie Reicheneker of York. Several of our members may know them. Their daughter, Brenda, is requesting a card shower for them. Rick & Dixie Reicheneker, c/o Brenda, 1412 E 4 <sup>th</sup> York NE 68467.		

We express our sympathy to the family of Bill Ashmore, a former member here. Bill was a kind, gentle soul, with a cheerful heart, despite the pain he had experienced in his life. Bill passed away Friday in Kenesaw. Arrangements are pending.

**Thank you** to all who helped the Grand Island, Hastings, and Mississippi youth groups who completed several service projects around Hastings on Friday. To all who worked, helped supervise a work project, transport teens, or provide lunch for the group, we are very grateful.

### **BUILD ON, BUILDER**

When Alexandre Gustave Eiffel completed his 984 foot wrought-iron tower on the Champs de Mars in Paris, France, he had already endured a deluge of criticism. His critics had tried to stop the erection of the Eiffel Tower, designed for the 1889 World's Fair. They mocked and ridiculed Eiffel before, during, and for years after the construction of the 7,000 ton iron and steel structure, which was built at a cost of over \$1,000,000 in 1889 currency. This French structural and aeronautical engineer built on, in spite of the opposition.

Even after the death of Eiffel in 1923, there were those who sought to have the tower torn down. His supporters, however, stood firm and steadfast. In 1989, France celebrated the one hundredth anniversary of the completion of what was, for many years, the highest structure in the world. With three observation platforms built in successive levels, it served as an important observation station during World War I. Today on the lowest platform, there is a restaurant. Since 1953, the structure has been used to transmit television signals. For those who visit this city, it stands as one of the most popular tourist attractions. It seems that Eiffel knew what he was doing.

There will always be critics. Some will never share the dreams and visions that have captured our hearts, so build on, builder. If there come unjust, uninformed critics, with little hearts of jealousy or spineless compromise, they will probably ask us to stop building and invite us to the plains of Ono. We must reply as did Nehemiah, "I am doing a great work so that I cannot come down: why should the work cease, whilst I leave it, and come down to you? (Neh. 6:1-16)
